perforated pipe
yes, no.

If YES depth of formation _____

Why _____

Drillers Remarks: _____

CODED

(Use Back Side)

Well No

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and verified. The second section details the various methods used to collect and analyze data, highlighting the need for consistency and precision. The third part describes the results of the experiments, showing a clear trend in the data that supports the initial hypothesis. Finally, the document concludes with a summary of the findings and suggestions for further research in this area.
