(5) Screen: Size 7", Length 5'

(6) Were any formations sealed against pollution?
 Yes, no.

If YES depth of formation 11 ft 4" Pipe

Why Sanitary Purpose

Drillers Remarks: Cylinder
 Set 58 ft

(Use Back Side)

Well No.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable sources of information.

3. The third part of the document describes the process of identifying and measuring the key performance indicators (KPIs) that are used to evaluate the organization's performance. It notes that these indicators should be carefully selected and regularly monitored to ensure that the organization is meeting its goals and objectives.

4. The fourth part of the document discusses the importance of communication and collaboration in the data analysis process. It emphasizes that all stakeholders should be involved in the process and that information should be shared openly and honestly.

5. The fifth part of the document concludes by summarizing the key findings and recommendations of the study. It notes that the data analysis process is a complex and ongoing one that requires a commitment to accuracy and transparency.
