Clay		82
Sand		92
Clay		96
Clay + Shale Sand		102
Sand + Shale Clay		112
Clay		138
Sand + Shale Clay		140
Sand		142
Sand + Shale Shale		152

Information upon completion of well:

(1) Diameter 2 inches.

(2) Total Depth 150 feet.

(3) Water Level 75 feet below top of ground.

(4) Cased to 140, Size 2"

(5) Screen: Size 2", Length 10ft

(6) Were any formations sealed against pollution?
no yes, no

If YES depth of formation _____
Why _____

Drillers Remarks: _____

(Use Back Side)

Well No.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the challenges and risks associated with data management. It discusses the potential for data loss, security breaches, and the impact of changing regulations on data handling practices.

4. The fourth part of the document provides a detailed overview of the data governance framework. It describes the roles and responsibilities of different stakeholders and the processes for ensuring data quality and integrity.

5. The fifth part of the document discusses the importance of data privacy and the measures taken to protect personal information. It covers topics such as data minimization, access control, and the implementation of privacy policies.

6. The sixth part of the document explores the role of data in decision-making and strategic planning. It illustrates how data-driven insights can be used to identify trends, opportunities, and risks, and to inform the organization's overall strategy.

7. The seventh part of the document discusses the importance of data literacy and the need for ongoing training and education. It emphasizes that all employees should have a basic understanding of data and its implications for the organization.

8. The eighth part of the document provides a summary of the key findings and recommendations. It reiterates the importance of a strong data governance framework and the need for continuous improvement in data management practices.

9. The ninth part of the document discusses the future of data and the emerging trends in data management. It highlights the potential of artificial intelligence, machine learning, and cloud computing to transform the way data is collected, analyzed, and used.

10. The tenth part of the document provides a final conclusion and a call to action. It encourages the organization to embrace a data-driven culture and to take the necessary steps to ensure the effective and ethical use of data.
