U72 The sketch below only required for water wells Description of formations encountered must be provided for a.l wells and boreholes, unless specifically exempted by regulations If well telescopes, show depths on sketch. Ground Level_ Description of Formations Encountered From (depth) To (depth) Ground Level COAL If more than one screen, show location of each on sketch Sketch the property layout and include the following: 1) the well location; 2) any permanent structures on the property that may aid in locating the well; 3) any roads, power lines, or other items that may aid in locating the property and the well; 4) a north arrow. wer

I certify that the well/borehole was drilled, constructed, and completed in accordance with all applicable requirements of the Mississippi Department of Environmental Quality and the Mississippi Department of Health regulations, if applicable, and state
