 yes, no.

If YES depth of formation _____

Why _____

Drillers Remarks: _____

54

Well No.

(Use Back Side)

The first part of the report deals with the general situation of the country and the progress of the work during the year. It is followed by a detailed account of the various projects and the results achieved. The report concludes with a summary of the work done and the plans for the future.

The work during the year has been carried out in accordance with the programme of work approved by the Council of the Institute. It has been carried out in a most efficient and economical manner and has resulted in a number of important discoveries and inventions.

The most important of these are the discovery of the new element, the invention of the new method of producing electricity, and the discovery of the new method of producing hydrogen. These discoveries and inventions are of great importance and will have a profound effect on the progress of science and industry.

The work during the year has also resulted in a number of important publications and reports. These are of great value to the scientific community and will be of great help to those who are engaged in similar work.

The work during the year has been carried out in a most efficient and economical manner and has resulted in a number of important discoveries and inventions. The work during the year has also resulted in a number of important publications and reports.
