WATER WELL DRILLERS LOG **CODED**

Date: 6/12, 1961, Driller: Johnnie Beasley County: Rankin
(Name)

	Description & Color of Materials Sand, Clay, Red Clay, Shell, etc.	Thick- ness Feet	Depth Feet
(1) Owner of Land: <u>Ernest Inter</u> (Name)			
<u>Hwy. 80 West, Jackson, Miss.</u> (Address)	Yellow clay.		0-36
This well is located on <u>above</u> Flow- ood <u>road</u> to <u>Hearl</u> river dam. <u>R.</u> (2) Location: <u>14-6-2</u>	Blue clay.		36-327
<u>8 miles North</u> of <u>Flowood</u> (distance) (direction) (Nearest Town)	Shale.		327-365
(3) Topography: <u>x</u> (Hilly) (Flat) (Level)	Silt.		365-369
(4) Purpose of Well: <u>Domestic</u> (Domestic Irrigation Municipal, Industrial, Other)	Rock.		369-371
Information upon completion of well:	Lime, shell & shale.		371-410
(1) Diameter <u>4 1/2</u> inches.	Shale & stks. silt.		410-570
(2) Total Depth <u>656</u> feet.	Fine sand & stks. shale.		570-586
(3) Water Level <u>115'</u> feet below top of ground. <u>250'</u> of <u>4"</u>	Fine sand.		586-600
(4) Cased to <u>631'</u> , Size <u>406'</u> of <u>2"</u>	Sand. (Screen setting)		600-656
(5) Screen: Size <u>2"</u> , Length <u>25'</u>			
(6) Were any formations sealed against pollution? <u>yes</u> , <u>x</u> no.			
If YES depth of formation _____			
Why _____			
Drillers Remarks: <u>Good well.</u>			

CODED

(Use Back Side)

Well No.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary sources, as well as the specific techniques employed for data processing and statistical analysis.

The third section provides a detailed overview of the results obtained from the study. It includes a series of tables and graphs that illustrate the trends and patterns observed in the data. The author also discusses the implications of these findings and how they relate to the overall objectives of the research.

Finally, the document concludes with a summary of the key findings and a list of recommendations for future research. The author suggests that further studies should be conducted to explore the long-term effects of the variables being studied and to identify potential areas for improvement.

The following table shows the distribution of data points across different categories. The data indicates a clear trend towards higher values in the later stages of the process, which is consistent with the theoretical model proposed in the introduction.

The analysis also reveals that there is a significant correlation between the variables being studied, suggesting that they are interrelated and influence each other in a predictable manner. This finding is particularly important as it provides a more comprehensive understanding of the underlying mechanisms at play.

In addition, the study highlights the need for more robust data collection methods to ensure the reliability and validity of the results. It is recommended that future researchers should consider using a combination of qualitative and quantitative approaches to gather more detailed and nuanced information.

Overall, the research presented in this document has provided valuable insights into the complex relationships between the variables being studied. The findings have important implications for both theory and practice, and they offer a solid foundation for further exploration in this field.
