chalk	30-	35
sand	35-	40
Chalk + lignite	40-	45
sand + chalk	45-	60
chalk	60-	70
lignite	70-	77
sand	77-	90
chalk	90-	95

Information upon completion of well:

(1) Diameter 2 inches.  
(2) Total Depth 95 feet.  
(3) Water Level 70 feet below top of ground.  
(4) Cased to 88', Size 2"  
(5) Screen: Size 2", Length 5'  
(6) Were any formations sealed against pollution?  
yes, no.

If YES depth of formation \_\_\_\_\_  
Why \_\_\_\_\_  
Drillers Remarks: \_\_\_\_\_

(Use Back Side)

Well No.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and processing, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that the data remains reliable and secure throughout its lifecycle.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of a data-driven approach in decision-making and the need for continuous monitoring and improvement of the data management process.
