 (2) Total Depth 136 feet.
 (3) Water Level 90 feet below top of ground.
 (4) Cased to 126 Size 2"
 (5) Screen: Size 1/4" Length 6'
 (6) Were any formations sealed against pollution?
 _____ yes, no.

If YES depth of formation _____
 Why _____
 Drillers Remarks: _____

Well No.

(Use Back Side)

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It highlights the need for a systematic approach to data collection and the importance of using reliable sources of information.

3. The third part of the document focuses on the analysis and interpretation of the collected data. It discusses the various statistical and analytical tools that can be used to identify trends and patterns in the data.

4. The fourth part of the document discusses the importance of communicating the results of the analysis to the relevant stakeholders. It emphasizes that clear and concise communication is essential for ensuring that the findings are understood and acted upon.

5. The fifth part of the document discusses the importance of monitoring and evaluating the effectiveness of the data collection and analysis process. It highlights that this is an ongoing process that requires regular review and adjustment.

6. The sixth part of the document discusses the importance of ensuring the confidentiality and security of the data. It emphasizes that this is a critical aspect of the data management process and that appropriate measures must be taken to protect the data from unauthorized access and disclosure.

7. The seventh part of the document discusses the importance of ensuring the accuracy and reliability of the data. It highlights that this is a key factor in the validity of the analysis and that appropriate measures must be taken to minimize errors and biases.

8. The eighth part of the document discusses the importance of ensuring the ethical use of the data. It emphasizes that this is a key consideration in the data management process and that appropriate measures must be taken to ensure that the data is used in a responsible and ethical manner.

9. The ninth part of the document discusses the importance of ensuring the transparency and accountability of the data management process. It highlights that this is a key factor in the trustworthiness of the data and that appropriate measures must be taken to ensure that the process is open and transparent.

10. The tenth part of the document discusses the importance of ensuring the flexibility and adaptability of the data management process. It highlights that this is a key factor in the ability to respond to changing requirements and that appropriate measures must be taken to ensure that the process is flexible and adaptable.
