WELL SCHEDULE

MASTER CARD

Record by: R.W. Adams
Date: 2.23.61
Map: Hatfield
County: George
State: MO
Lat-long:
Latitude: 30° 55' 40"
Longitude: 88° 27' 05"
Lat-long accuracy:
Local well number: 301 30 13 35 01 05 20
Local use: 0900
Owner or name: 0
Address:
Ownership: County, Fed Gov't, City, Corp or Co, Private, State Agency, Water Dist
Use of water:
Stock, Instlt, Unused, Repressure, Exchange, Desal-F S, Desal-other, Other
Use of well:
Anode, Deka, Seisuc, Heat Res, Obs, Oil-gas, Recharge, Test, Unused, Withdraw, Waste, Destroyed
Data Available:
Well data: 0
Freq, W/L meas: 0
Field aquifer char: 0
Hyd. lab. data:
Qual. water data:
type: USGS Partial 0-28-41
Freq. sampling: yes
Pumpage inventory: no
Aperture cards: 0
Log data:
WELL-DESCRIPTION CARD

SAME AS ON MASTER CARD
Depth well: 100 ft
Depth cased: none
Finishing: (select perf., screen, gallery, etc.): no
Method: air bored, cable, dug, jetted, reverse trenching, driven, openhole, other
Drilled:
Date Drilled: 09-4-02
Driller: Deardorff
Level:
Water: above MP; Ft below LSD
Flow: 2
Level: 0
Date pump down: 0
Flow rate: 0
Quality of water:
Iron: 49
Sulfate: 0
Chloride: 0
Sp. Conduct: 0
Temp: 0
Taste, color, etc.
Little was determined concerning this well except that it was drilled as a test well for oil and abandoned. There is no casing, and to a casual observer, this would appear to be simply a strong spring. An attempt was made to measure its depth but a five pound lead weight on the end of a surveying tape would not sink very deep into the bubbling sand. There was no indication that the weight was hung up on a ledge, but simply that it would sink no further. An interesting fact that is readily noticeable is the fluctuating characteristic of the flow. Although the period was not determined it is quite noticeable that the flow is strong, subsides, is strong again each cycle occupying a few minutes time.
