HYDROGEOLOGIC CARD

SAME AS ON MASTER CARD

Physiographic Province: ____________________________

N S

Drainage Basin: ____________________________

Section: ____________________________

Subbasin: ____________________________

Topo of depression, stream channel, dunes, flat, hilltop, sink, swamp, well site: ____________________________

F

offshore, pediment, hillside, terrace, undulating, valley flat

MAJOR AQUIFER: ____________________________

Lithology: ____________________________

System: ____________________________

Origin: ____________________________

Aquifer Thickness: ____________________________

Length of well open to: ____________________________ ft

Depth to top of: ____________________________ ft

WATER AQUIFER:

System: ____________________________

Origin: ____________________________

Aquifer Thickness: ____________________________

Length of well open to: ____________________________ ft

Depth to top of: ____________________________ ft

Intervals Screened:

Depth to consolidated rock: ____________________________ ft

Source of data: ____________________________

Depth to basement: ____________________________ ft

Source of data: ____________________________

Surface material: ____________________________

Infiltration characteristics: ____________________________

Coefficient Trans: ____________________________

Coefficient Storage: ____________________________

Coefficient Perm: ____________________________

Spec cap: ____________________________

Number of geologic cards: ____________________________
