---

**Note:**

- The page contains a hydrogeologic card with various fields filled in, including sections for physiographic province, drainage basin, subbasin, major and minor aquifer systems, origin, thickness, length of well open to, intervals screened, depth to consolidated rock, depth to basement, surface material, coefficient, trans., coefficient, perm., spec cap., and number of geologic cards.

- The image shows a grid layout, possibly representing a map or data display related to the hydrogeologic information.
