Note: The image contains a form with handwritten and typed data related to a well schedule. The form includes various fields for data such as latitude, longitude, ownership, well use, data availability, well description, and water quality parameters. The data is filled out with specific values, and there are handwritten notes and signatures indicating the completion of the form. The form is part of a geological and water resource survey, specifically for the U.S. Department of the Interior, Geological Survey, Water Resources Division.
