A page from a well schedule document. The page includes various fields such as well number, master card details, ownership, data availability, well description, and water quality data. The document appears to be a record of groundwater data. The well number is 183. The master card includes information about the county, state, latitude, longitude, and other related details. The well description includes information about the casing thickness, depth to water, and other technical specifications. The data section includes dates, measurements, and water quality parameters like iron, sulfate, and chloride concentrations. The document uses a combination of typed and handwritten text, and the text is clearly legible.
## HYDROGEOLOGIC CARD
